

## Inspire Learning with Eyes Wide Open

### Unleash Creativity

Maximize creativity in every student with the StarBoard T-19WX, a wide LCD pen display with the full functionality of an interactive whiteboard. Deliver interactive lessons and write digital notes on the pen display, while your students view the same visuals projected onto a large screen in the front of the classroom.

### Illustrate and Interact

The T-19WX puts you in control of a powerful multimedia environment where you can interact with lessons, connect ideas, and write over any application, image or video with digital ink. Save and distribute your notes to the class and revisit the session anytime to keep concepts fresh and make your job easier.

### Designed for Education

The interactive pen display integrates seamlessly into any existing teaching style with its attractive size and low-profile design. Conveniently placed on a desktop or lectern, the bright 19" display provides more working space and a clear image with WXGA+ resolution that works well with high-resolution LCD projectors.

“With StarBoard systems in their hands, the faculty is more excited than ever to teach... the future certainly looks promising.”

– Mike Poplin, Director at Phoenix College.

## Features

- 1 Function buttons
- 2 Page up/page down
- 3 Power button
- 4 LCD/Active area
- 5 Speakers

## Dimensions

MODEL	ACTIVE AREA
T-19WX	19" (diagonal)
